

Transitional Age Community Treatment Program

The Transitional Age Community Treatment (TACT) Program is an inter-disciplinary team of professionals that aid and prepare youth and young adults for community living. This program is a collaborative effort between Recovery Resources and the Alcohol, Drug Addiction & Mental Health Services Board of Cuyahoga County.

Mission & Goal

The primary goal of the TACT Program is to transition youth from out of home placements for community integration and sustainability by reducing behavioral health symptoms with the outcome of preventing homelessness, avoiding or eliminating court involvement, and reducing admissions to Ohio Department of Youth Services' (ODYS) correctional facilities or adult justice system.

What Makes Us Different?

Transitional Age Community Treatment (TACT) was developed due to the intensive needs of youth challenged with behavioral symptoms and/or complex issues that do not meet the admission criteria of the Assertive Community Treatment (ACT) Team but need a multidisciplinary approach for severe persistent behaviors.

The TACT program is supportive of our partnering systems that need additional support such as The Cuyahoga County Department of Children and Family Services (CCDCFS) and the Ohio Department of Youth Services (ODYS) as well as the community at large.

The TACT model will address basic supports such as housing sustainability, independent living skills, medication monitoring, social skill development, relationship enhancement, vocational skill building, and academic exploration.

Youth eligible for TACT are experiencing the following:

- o Severe Persistent Behaviors
- o Socially Disruptive Behaviors
- o Emerging Personality Disorder
- o Significant substance abuse greater than six months

How to Make a Referral:

Send all referrals to the TACT Program at Recovery Resources.
Fax: (216) 400-7922
Phone: (216) 431-4131
3950 Chester Avenue
Cleveland, OH 44114

Referrals deemed appropriate for the TACT Program will be outreached for services by a CPST (Case Manager) or A-CRA

If referrals are not appropriate for TACT programming, alternative resources will be recommended.
